ABSTRACT IN THAI .....	I
ABSTRACT IN ENGLISH .....	II
ACKNOWLEDGEMENTS .....	III
CONTENTS .....	IV
LIST OF TABLES .....	VII
LIST OF FIGURES .....	VIII
LIST OF ABBREVIATIONS .....	X
<b>CHAPTER</b>	
<b>I INTRODUCTION .....</b>	<b>1</b>
1.1 Background of the study .....	1
1.2 Research objectives / Purposes of the study .....	5
1.3 Scope and limitations .....	5
<b>II LITERATURE REVIEWS .....</b>	<b>7</b>
2.1 Species classification .....	7
2.2 Floral ecology .....	11
2.2.1 Flower part and shape .....	11
2.2.2 Arrangement of stigma and stamen .....	12
2.2.3 Anther dehiscence .....	12
2.3 Floral phenology .....	12
2.4 Pollination system .....	13
2.5 Breeding system .....	14
2.6 Seed germination .....	15
2.7 Seed dormancy .....	17
2.8 Effect of BAP to shoot generation of <i>L. aromatica</i> .....	18
<b>III MATERIALS AND METHODS .....</b>	<b>19</b>
3.1 Study sites and plant materials .....	19

## CONTENTS (Continued)

		Page
	3.2 Floral morphology .....	20
	3.2.1 Floral morphology and Anther dehiscence.....	20
	3.2.2 Floral phenology.....	20
	3.3 Breeding system .....	22
	3.4 Pollination.....	23
	3.5 Seed germination test.....	24
	3.6 Effect of BAP on shoot generation of <i>L. geoffrayi</i> .....	26
<b>IV</b>	<b>RESULTS and DISCUSSIONS.....</b>	<b>27</b>
	4.1 Floral morphology and anther dehiscence of <i>L. aromatica</i> and <i>L. geoffrayi</i> .....	27
	4.2 Floral phenology of <i>L. aromatica</i> and <i>L. geoffrayi</i> .....	33
	4.3 Breeding systems.....	35
	4.4 Pollination.....	37
	4.5 Seed germination test.....	44
	4.6 Effect of BAP on shoot generation of <i>L. geoffrayi</i> .....	51
<b>V</b>	<b>CONCLUSIONS .....</b>	<b>56</b>
	5.1 Floral morphology .....	56
	5.2 Breeding system .....	56
	5.3 Pollination.....	57
	5.4 Seed germination test.....	57
	5.5 Effect of BAP on shoot generation of <i>Limnophila geoffrayi</i> .....	58
	REFERENCES .....	59

## CONTENTS (Continued)

	Page
APPENDICES.....	67
APPENDIX A DATA RECORD OF SEED GERMINATION OF <i>LIMNOPHILA</i> <i>GEOFFRAYI</i> .....	68
APPENDIX B DATA RECORD OF EFFECT OF BAP ON SHOOT GENERATION OF <i>LIMNOPHILA GEOFFRAYI</i> .....	117
CURRICULUM VITAE.....	127

## LIST OF TABLES

Table	Page
1.1 The comparative morphology of <i>Limnophila aromatica</i> and <i>L. geoffrayi</i> .....	3
1.2 The comparative benefit of <i>Limnophila aromatica</i> and <i>L. geoffrayi</i> .....	4
3.1 Various methods are used to prepare <i>Limnophila geoffrayi</i> seeds.....	25
4.1 <i>Limnophila aromatica</i> and <i>L. geoffrayi</i> 's fruit set and treatments for pollination .....	35
4.2 Insect visits of <i>Limnophila aromatica</i> (Botanical Garden) compared with <i>L. geoffrayi</i> (Rice fields).....	39
4.3 One-way ANOVA of the percentage of seed germination (GP; %), germination index (GI), and mean germination times (MGT; days) of <i>Limnophila geoffrayi</i> seeds for different treatment series .....	45
4.4 Two-way ANOVA of the percentage of seed germination (GP; %), germination index (GI), and mean germination times (MGT; days) in different storage period, treatment series, and their interaction of <i>Limnophila geoffrayi</i> seeds .....	49
4.5 Effect of different concentrations of BAP on shoots per explant, shoot length, leaves per shoot, roots per explant, and root length of <i>Limnophila geoffrayi</i> for 8 weeks.....	53

## LIST OF FIGURES

Figure	Page
1.1	Flow chart of research procedure in this study..... 6
2.1	<i>Limnophila aromatica</i> ..... 9
2.2	<i>Limnophila geoffrayi</i> ..... 10
3.1	Habitat of the study sites..... 19
3.2	Characteristics of <i>Limnophila aromatica</i> and <i>L. geoffrayi</i> at each stage of development.....21
3.3	Different treatments in breeding system study of <i>Limnophila aromatica</i> and <i>L. geoffrayi</i> ..... 23
3.4	Pollination observation of <i>Limnophila aromatica</i> and <i>L. geoffrayi</i> ..... 24
4.1	The floral colors of <i>Limnophila aromatica</i> and <i>L. geoffrayi</i> ..... 28
4.2	Floral morphological comparison of <i>Limnophila aromatica</i> and <i>L. geoffrayi</i> ..... 29
4.3	Position of sex organs and anther dehiscence at different floral stages of <i>Limnophila aromatica</i> ..... 31
4.4	Position of sex organs and anther dehiscence at different floral stages of <i>Limnophila geoffrayi</i> ..... 32
4.5	Percentage of open flowers of <i>Limnophila aromatica</i> and <i>L. geoffrayi</i> in the floral opening period..... 34
4.6	Flower opening patterns of both species during the floral opening period .... 34
4.7	<i>Limnophila aromatica</i> 's fruit set and treatments for pollination..... 36
4.8	<i>Limnophila geoffrayi</i> 's fruit set and treatments for pollination..... 37
4.9	Some of flowering plants in the study plots of <i>Limnophila geoffrayi</i> and insects that forage in the flowers ..... 40
4.10	Number of insects visiting the flowers of <i>Limnophila aromatica</i> and <i>L. geoffrayi</i> ..... 41

## LIST OF FIGURES (Continued)

Figure	Page
4.11 A diversity of insects that have foraging behaviors in the flowers of <i>Limnophila aromatica</i> .....	42
4.12 A diversity of insects that have foraging behaviors in the flowers of <i>Limnophila geoffrayi</i> .....	43
4.13 Capsule and seed of <i>Limnophila geoffrayi</i> .....	44
4.14 The success of seed germination in <i>Limnophila geoffrayi</i> assessed by the visibility of green.....	44
4.15 Cumulative germination percentage diagrams for <i>Limnophila geoffrayi</i> seeds in different treatments under storage seed conditions for 0 month .....	48
4.16 Cumulative germination percentage diagrams for <i>Limnophila geoffrayi</i> seeds in different treatments under storage conditions for 12 months .....	50
4.17 Shoot regeneration of <i>Limnophila geoffrayi</i> on different concentrations of BAP medium at 8 weeks .....	52
4.18 The effect of different concentrations of BAP on shoots generation of <i>Limnophila geoffrayi</i> at 4, 6, and 8 weeks .....	53
4.19 The effect of different concentrations of BAP on the shoot length of <i>Limnophila geoffrayi</i> at 4, 6, and 8 weeks .....	54
4.20 The effect of different concentrations of BAP on the number of leaves per explant of <i>Limnophila geoffrayi</i> at 4, 6, and 8 weeks.....	55

## LIST OF ABBREVIATION

°C	Degree Celsius
am	Ante Meridiem
BAP	6-benzylaminopurine
ca.	approximately
GA <sub>3</sub>	Gibberellic acid
KIN	Kinetin
mg/l	Milligram per liter
MS	Murashige and Skoog
pm	Post Meridiem
ppm	Parts per million
